/hug/

-

Mornings, for the most part, are not conducive to spanking, as the mere idea of being flogged while the day awaits can literally send the sun hidings. Put on some shorts, the both of you, and venture into the wild.

You may resume operations once you get to the forest. Go deep, deeper still, until you find a spot that seems to agree with hosting you lot. Lay flat on your back. Hail freedom. Hug.
